  10th
  75%

Technical Skills

- Languages: HTML ,CSS , Python
- Databases : MySQL(Basics)
- Ms Excel

Projects

- **Communication Management System**
  Communication is a mean for people to exchange messages.This messaging application includes messaging through internet using IP address instead of mobile number.The application emphasizes seamless user login, global connectivity, and efficient data transfer, differing from traditional messaging apps by removing geographic and device constraints.
- **Dynamic AES Encryption and block chain key management:A novel solution for cloud data security**
  Developed a secure cloud data storage system using Dynamic AES encryption for data confidentiality and Blockchain for decentralized key management. Ensured enhanced protection against unauthorized access and key tampering by integrating cryptographic techniques with distributed ledger technology.

Languages
